Thank you for choosing Sensus for your FlexNet needs. We are confident that you will be very satisfied with the services that we offer.

From: Pautz, Tom
Subject: RE: Additional meter information

Here is my response and explanation in response to Brady's question regarding in home monitoring and automation:

The Sensus iConA meter will only provide in home automation if there are in home devices that are equipped with ZigBee radios and the iConA meter has a corresponding ZigBee radio. The ZigBee radio is an option that must be purchased at the time of order and cannot be retrofitted in the meter. Since the City of Brady has elected to not purchase ZigBee radios in their iConA meters there is no ZigBee in home monitoring or automation available.
